[USACE Project No. SWF-2010-00244]

Availability of a Final Regional Environmental Impact Statement to Analyze Potential Impacts within Defined Geographic Regions in Texas That May Be Affected by Future U.S. Army Corps of Engineers, Fort Worth District, Permit Decisions for Future Surface Coal and Lignite Mine Expansions or Satellite Mines within the District's Area of Responsibility

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Availability.

SUMMARY: The U.S. Army Corps of Engineers (USACE), Fort Worth District, as lead federal agency, has prepared this Regional Environmental Impact Statement (REIS) to analyze potential impacts within defined geographic regions in Texas that may be affected by future USACE, Fort Worth District, permit decisions for future surface coal and lignite mine expansions or satellite mines within the District's area of responsibility. The REIS has been prepared in compliance with the National Environmental Policy Act of 1969 (NEPA), the Council on Environmental Quality (CEQ) Regulations for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500-1508), and the USACE Procedures for Implementing NEPA (33 CFR part 230).

FOR FURTHER INFORMATION CONTACT: Mr. Darvin Messer, Regulatory Project Manager at (817) 886-1744 or via email: *Darvin.Messer@usace.army.mil*

SUPPLEMENTARY INFORMATION: The USACE, Fort Worth District, is proposing changes to its regulatory framework for surface coal and lignite mines in Texas. The proposed regulatory framework includes the establishment of a Regional General Permit (RGP) and a revised Letter of Permission (LOP) procedure with modifications to aquatic resource impact thresholds and a change from agency concurrence to agency coordination as compared to the current process. No changes to the criteria for Nationwide Permit (NWP) 21 or NWP 49 are proposed.

The REIS considers the potential environmental impacts of future mine expansions or satellite mines in six study areas along the coal-bearing formations in Texas that run from southwest Texas to northeast Texas. The study areas encompass locations within the coal/lignite belt in Texas that were determined to be within reasonable proximity to existing surface coal and lignite mines with potential for future expansion.

Copies of the Final REIS may be obtained by contacting USACE Fort Worth District Regulatory Branch at (817) 886-1731 or downloaded/printed from the Fort Worth District USACE internet website at:
